### System Highlights

**Aluminum Pivot Panel Specifications**
Extruded aluminum 6063-T5 with door panel corner keys for strength and security / optional wood clad finish available

**Wood Pivot Panel Specifications**
From 2-1/4" - 3-1/2" thick / optional aluminum clad finish available in AAMA 2604 and 2605

**Hardware**
Stainless steel (316/304SS) components with aluminum hinges

**Lever Lock Sets**
Top and bottom shootbolt locking system

**Multi-point Door Locks**
Faceplate, latch and hooks are 304SS

**No Sills**
No sills necessary

**Matching Fixed Units**
Matching Florida Product Approved impact rated transom and sidelight units available

**Largest Impact Rated Panel Sizes**
144” tall / 72” wide panels - the largest available HVHZ impact tested and Florida Product Approved pivot door

**Under Pressure**
Highest design pressure available for any impact rated pivot door - up to 60+/-

**Aesthetics**
Muntins, simulated divided lites, mid-rails, custom wood cladding, custom aluminum cladding . . . a multitude of customization options allow for flexible and functional design

**Ladder Pull**
Available in sizes ranging from 1’ - 8’ to meet the needs of your application

**Self Closure**
Hydraulic self closure option available

**Long Lasting Finish**
Standard finish coating is AAMA 2605, the highest quality finish available
OPTIONAL DRAINAGE SYSTEM

Euro-Wall offers an optional water management system that allows water to drain away from the pivot door location. NOTE: This is a non water rated door in the state of Florida.
